GENERAL DATA PROTECTION REGULATIONS POLICY

Interpretation

In this policy, 'the Company' means the TWG company that employs you (or, for policies about how we do business, the TWG company concerned): Roofworx (UK) Limited (Co. No. 08946095), Woodworx (Carpentry UK) Ltd (Co. No. 11828681) or Fire-worx (Fire Safety) UK Ltd (Co. No. 14615772). 'TWG' means those companies together, trading as TWG - The Worx Group.

This policy does not form part of any employee's contract of employment and may be amended at any time.

Introduction

TWG - The Worx Group (Roofworx, Woodworx and Fire-worx) holds personal data about our employees, clients, suppliers and other individuals for a variety of business purposes. This policy sets out how the Company seeks to protect personal data and ensure that employees understand the rules governing their use of personal data to which they have access in the course of their work. This policy is underpinned by Data Protection Law (all legislation and regulations in force from time to time regulating the use of personal data and the privacy of electronic communications including, but not limited to, the UK General Data Protection Regulation ("UK GDPR"), the Data Protection Act 2018, the Data (Use and Access) Act 2025, the Privacy and Electronic Communications Regulations 2003 ("PECR") and any successor legislation). In this policy, "GDPR" means the UK GDPR.

Definitions

Business purposes

The purposes for which personal data may be used by TWG: Personnel, administrative, financial, regulatory, payroll and business development purposes.

Types of personal data

Information relating to identifiable individuals, such as job applicants, current and former employees, agency, contract and other employees, clients, suppliers and marketing contacts.

Personal data TWG gathers may include: individuals' contact details, educational background, financial and pay details, details of certificates and diplomas, education and skills, marital status, nationality, job title, and CV.

Types of sensitive personal data

Special category data: personal data about an individual's racial or ethnic origin, political opinions, religious or philosophical beliefs, trade union membership, genetic or biometric data, physical or mental health, sex life or sexual orientation; and criminal offence data (criminal convictions, offences or related proceedings). Any use of sensitive personal data should be strictly controlled in accordance with this policy.

Data controller

The natural or legal person or organisation which, alone or jointly with others, determines the purposes and means of the processing of personal data. For the purposes of this Policy, each TWG company (Roofworx (UK) Limited, Woodworx (Carpentry UK) Ltd and Fire-worx (Fire Safety) UK Ltd) is the data controller of the personal data of its own employees, job applicants, clients and suppliers. Where the companies share

TWG - The Worx Group: Roofworx (UK) Limited, Co. No. 08946095 · Woodworx (Carpentry UK) Ltd, Co. No. 11828681 · Fire-worx (Fire Safety) UK Ltd, Co. No. 14615772
Registered office: Unit 1, Office 1 Tower Lane Business Park, Tower Lane, Warmley, Bristol BS30 8XT

systems or decide jointly how personal data is used, they act as joint controllers and will set out their respective responsibilities in a written arrangement.

Data processor

The natural or legal person or organisation which processes personal data on behalf of a data controller.

Data subject

A living, identified, or identifiable natural person about whom the Company holds personal data.

Scope

This policy applies to all employees. They must be familiar with this policy and comply with its terms. This policy supplements the Company's other policies relating to data protection. TWG may supplement or amend this policy by additional policies and guidelines from time to time. Any new or modified policy will be circulated to employees before being adopted.

The Office Manager is the Company's data protection lead. TWG is not required to appoint a formal Data Protection Officer. Any questions relating to this Policy or to Data Protection Law should be referred to the Office Manager, who is responsible for administering this Policy and for developing and implementing any applicable related policies, procedures and/or guidelines. All applicable positions e.g. managers, department heads, supervisors etc are responsible for ensuring that all employees, agents, contractors, or other parties working on behalf of the Company comply with this Policy and, where applicable, must implement such practices, processes, controls and training as are reasonably necessary to ensure such compliance.

The Data Protection Principles

This Policy aims to ensure compliance with Data Protection Law. The GDPR sets out the following principles with which any party handling personal data must comply. Data controllers are responsible for, and must be able to demonstrate, such compliance. All personal data must be:

- processed lawfully, fairly, and in a transparent manner in relation to the data subject;
- collected for specified, explicit, and legitimate purposes and not further processed in a manner that is incompatible with those purposes. Further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall not be considered to be incompatible with the initial purposes;
- adequate, relevant, and limited to what is necessary in relation to the purposes for which it is processed;
- accurate and, where necessary, kept up to date. Every reasonable step must be taken to ensure that personal data that is inaccurate, having regard to the purposes for which it is processed, is erased, or rectified without delay;
- kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data is processed. Personal data may be stored for longer periods insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes, or statistical purposes, subject to implementation of the appropriate technical and organisational measures required by the GDPR in order to safeguard the rights and freedoms of the data subject;
- processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction, or damage, using appropriate technical or organisational measures.

TWG - The Worx Group: Roofworx (UK) Limited, Co. No. 08946095 · Woodworx (Carpentry UK) Ltd, Co. No. 11828681 · Fire-worx (Fire Safety) UK Ltd, Co. No. 14615772

Our Procedures

Fair and lawful processing

TWG must process personal data fairly and lawfully in accordance with individuals' rights. This means the Company must have a lawful basis for each use of personal data (see Conditions for processing below). For employee and customer data the basis will usually be the performance of a contract, compliance with a legal obligation or the Company's legitimate interests. Consent is used only where it is genuinely optional, such as some marketing, and is rarely appropriate for employee data.

Responsibilities of the office manager:

- Keeping relevant employees updated about data protection responsibilities, risks and issues
- Reviewing all data protection procedures and policies on a regular basis
- Arranging data protection training and advice for all employees and those included in this policy
- Answering questions on data protection from employees, board members and other stakeholders
- Responding to individuals such as clients and employees who wish to know which data is being held on them
- Checking and approving with third parties that handle the Company's data any contracts or agreement regarding data processing
- Ensure all systems, services, software and equipment meet acceptable security standards
- Checking and scanning security hardware and software regularly to ensure it is functioning properly
- Researching third-party services, such as cloud services the company is considering using to store or process data
- Approving data protection statements attached to emails and other marketing copy
- Addressing data protection queries from clients, target audiences or media outlets

The processing of all data must be:

- Necessary to deliver Company services
- In the legitimate interests and not unduly prejudice the individual's privacy
- In most cases this provision will apply to routine business data processing activities.

TWG's Terms of Business contains a Privacy Notice on data protection. The following information is included in the Privacy Notice:

- the purposes for which the Company holds personal data on customers and employees
- where applicable, the legitimate interests upon which the Company is justifying its collection and processing of the personal data;
- where the personal data is not obtained directly from the data subject, the categories of personal data collected and processed;
- where the personal data is to be transferred to one or more third parties, details of those parties;
- where the personal data is to be transferred to a third party that is located outside of the UK, details of that transfer, including but not limited to the safeguards in place;
- details of applicable data retention periods;
- details of the data subject's rights under the GDPR;
- where processing is based on consent, details of the data subject's right to withdraw their consent to the Company's processing of their personal data at any time;

TWG - The Worx Group: Roofworx (UK) Limited, Co. No. 08946095 · Woodworx (Carpentry UK) Ltd, Co. No. 11828681 · Fire-worx (Fire Safety) UK Ltd, Co. No. 14615772
Registered office: Unit 1, Office 1 Tower Lane Business Park, Tower Lane, Warmley, Bristol BS30 8XT

- details of how to complain to the Company, and of the data subject's right to complain to the Information Commissioner's Office (the UK supervisory authority);
- where the personal data is not obtained directly from the data subject, details about the source of that personal data;
- where applicable, details of any legal or contractual requirement or obligation necessitating the collection and processing of the personal data and details of any consequences of failing to provide it; and
- details of any automated decision-making or profiling that will take place using the personal data, including information on how decisions will be made, the significance of those decisions, and any consequences.

Sensitive personal data

Where the Company processes special category or criminal offence data it must have both a lawful basis and an additional condition under the UK GDPR and Schedule 1 of the Data Protection Act 2018. For employee data this will usually be the employment, health and safety or social security condition rather than consent. Explicit consent will only be relied on where no other condition applies. Any such consent will need to clearly identify what the relevant data is, why it is being processed and to whom it will be disclosed.

Accuracy and relevance

TWG will ensure that any personal data processed is accurate, adequate, relevant and not excessive, given the purpose for which it was obtained. The Company will not process personal data obtained for one purpose for any unconnected purpose unless the individual concerned has agreed to this or would otherwise reasonably expect this.

Individuals may ask that inaccurate personal data relating to them is corrected. If employees believe that information is inaccurate or if their personal circumstances change, they should inform their office manager so they can update records.

Data security

Employees must keep personal data secure against loss or misuse. Where other organisations process personal data as a service on TWG's behalf, the office manager will establish what, if any, additional specific data security arrangements need to be implemented in contracts with those third party organisations.

Storing data securely

- In cases when data is stored on printed paper, it should be kept in a secure place where unauthorised personnel cannot access it
- Printed data should be shredded when it is no longer needed
- Data stored on a computer should be protected by strong passwords that are changed regularly.
- Data stored on removable media such as memory sticks or external drives must be encrypted and locked away securely when they are not being used
- The office manager must approve any cloud used to store data
- Servers containing personal data must be kept in a secure location, away from general office space
- Data should be regularly backed up in line with the company's backup procedures
- Data should never be saved directly to mobile devices such as laptops, tablets or smartphones
- Approval must be sought from the office manager before any large data downloads occur.

TWG - The Worx Group: Roofworx (UK) Limited, Co. No. 08946095 · Woodworx (Carpentry UK) Ltd, Co. No. 11828681 · Fire-worx (Fire Safety) UK Ltd, Co. No. 14615772
Registered office: Unit 1, Office 1 Tower Lane Business Park, Tower Lane, Warmley, Bristol BS30 8XT

- All servers containing sensitive data must be approved and protected by security software and strong firewall.

Data retention

TWG must retain personal data for no longer than is necessary. What is necessary will depend on the circumstances of each case, taking into account the reasons that the personal data was obtained, but should be determined in a manner consistent with our data retention guidelines.

Transferring data internationally

There are restrictions on international transfers of personal data. Employees must not transfer personal data anywhere outside the UK without first consulting the Office Manager. Transfers outside the UK may only be made to countries covered by UK adequacy regulations, or with appropriate safeguards such as the ICO's International Data Transfer Agreement (IDTA) or the UK Addendum to the EU standard contractual clauses.

The Rights of Data Subjects

The GDPR sets out the following key rights applicable to data subjects:

- The right to be informed;
- the right of access;
- the right to rectification;
- the right to erasure (also known as the 'right to be forgotten');
- the right to restrict processing;
- the right to data portability;
- the right to object; and
- rights with respect to automated decision-making and profiling.

Processing data in accordance with the individual's rights

Employees should abide by any request from an individual not to use their personal data for direct marketing purposes and notify the office manager about any such request. Employees must not send direct marketing material to someone electronically unless there is an existing business relationship with them in relation to the services being marketed. Please contact the office manager for advice on direct marketing before starting any new direct marketing activity.

Conditions for processing

TWG will ensure any use of personal data is justified using at least one of the conditions for processing and this will be specifically documented. All employees who are responsible for processing personal data will be aware of the conditions for processing which include:

a) the data subject has given consent to the processing of their personal data for one or more specific purposes;

b) the processing is necessary for the performance of a contract to which the data subject is a party, or in order to take steps at the request of the data subject prior to entering into a contract;

c) the processing is necessary for compliance with a legal obligation to which the data controller is subject;

d) the processing is necessary to protect the vital interests of the data subject or of another natural person;

TWG - The Worx Group: Roofworx (UK) Limited, Co. No. 08946095 · Woodworx (Carpentry UK) Ltd, Co. No. 11828681 · Fire-worx (Fire Safety) UK Ltd, Co. No. 14615772
Registered office: Unit 1, Office 1 Tower Lane Business Park, Tower Lane, Warmley, Bristol BS30 8XT

e) the processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the data controller; or

f) the processing is necessary for the purposes of the legitimate interests pursued by the data controller or by a third party, except where such interests are overridden by the fundamental rights and freedoms of the data subject which require protection of personal data, in particular where the data subject is a child.

Consent

Where TWG relies on consent, it must be freely given, specific, informed and recorded, and can be withdrawn at any time. Consent is not the basis for most processing of employee data.

Criminal record checks

Criminal record checks will only be carried out where they are justified and permitted by law (for example, a basic DBS check for certain roles or client sites), and the information will be handled as criminal offence data.

Data requests

Upon request, a data subject has the right to receive a copy of their personal data (a subject access request). Requests must be passed to the Office Manager straight away and answered within one month (extendable by up to two further months for complex requests). The Company will carry out a reasonable and proportionate search, and will protect the privacy of other individuals. A data subject may also request that their data is transferred directly to another system. This must be done for free.

Right to be forgotten

A data subject may request that any information held on them is deleted or removed, and any third parties who process or use that data must also comply with the request. An erasure request can only be refused if an exemption applies.

Complaints

Anyone who is unhappy with how the Company has used their personal data can complain to the Office Manager in writing or by email. The Company will acknowledge the complaint within 30 days, investigate it without undue delay and tell the person the outcome, as required by the Data (Use and Access) Act 2025. If they remain unhappy, they can complain to the Information Commissioner's Office (ico.org.uk, 0303 123 1113).

Personal data breaches

Employees must report any actual or suspected loss or misuse of personal data to the Office Manager immediately. Where a breach is likely to result in a risk to individuals, the Company must report it to the ICO within 72 hours of becoming aware of it.

Data Protection Impact Assessments and Privacy by Design

In accordance with the privacy by design principles, the Company will carry out Data Protection Impact Assessments for any and all new projects and/or new uses of personal data which involve the use of new technologies and where the processing involved is likely to result in a high risk to the rights and freedoms of data subjects. Data Protection Impact Assessments will be overseen by the Office Manager and address the following:

- the type(s) of personal data that will be collected, held, and processed;
- the purpose(s) for which personal data is to be used;
- the Company's objectives;

TWG - The Worx Group: Roofworx (UK) Limited, Co. No. 08946095 · Woodworx (Carpentry UK) Ltd, Co. No. 11828681 · Fire-worx (Fire Safety) UK Ltd, Co. No. 14615772
Registered office: Unit 1, Office 1 Tower Lane Business Park, Tower Lane, Warmley, Bristol BS30 8XT

- how personal data is to be used;
- the parties (internal and/or external) who are to be consulted;
- the necessity and proportionality of the data processing with respect to the purpose(s) for which it is being processed;
- risks posed to data subjects;
- risks posed both within and to the Company; and
- proposed measures to minimise and handle identified risks.

Document Control

Policy owner: a Director. Approved by: the Directors of each TWG company. This policy is reviewed at least annually and whenever the law changes (see the review date in the footer).

Signed on behalf of the TWG companies:

Matthew Coupe, Director
